MUSTANG MEDICAL

*"I was sick and you cared for me...
Truly I tell you, whatever you did for one of the least of
these brothers and sisters of mine, you did for me."
— Matthew 25:36 & 40*

MUSTANG MEDICAL

ABOUT MUSTANG MEDICAL

Mustang Medical offers students meaningful hands-on experience in healthcare, providing the knowledge and skills needed for fulfilling careers in medicine and related fields. As the healthcare landscape evolves, our students are encouraged to think critically, adapt with confidence, and embrace change with resilience. Most importantly, this pathway nurtures a deep sense of purpose—guiding students to provide compassionate care for the sick and vulnerable as a heartfelt expression of their faith.

Students may begin the program as Freshmen for a comprehensive four-year journey. This path provides meaningful exposure, practical learning opportunities, and preparation for success in the medical field.

At the end of the program, students will be well-prepared to take the **Certified Clinical Medical Assistant (CCMA) exam**, equipping them to enter the workforce with confidence and advance in their profession while serving their community. Madison Academy students have a pass rate of over 90%. Earning this credential provides a lifelong distinction that they carry with them throughout their careers.

"The medical internship at Madison Academy gave me the chance to explore, shadow, and engage with a wide range of medical professions in a safe and supportive environment. In high school, I knew I wanted to pursue a career in medicine, but I didn't fully understand the career paths available. Thanks to the strong connections of the MA internship program, I gained valuable access to different medical specialties. What I appreciated most was hearing the unique stories of healthcare providers—why they chose their paths, what their educational journeys looked like, and the realities of their day-to-day work."

— Madeline Bacon, Class of 2022

WHY CHOOSE MUSTANG MEDICAL?

- Gain exposure to a wide range of healthcare professions and discover your path before college. Discover various healthcare occupations, including physicians, radiologists, laboratory technicians, pharmacists, administrators, biomedical engineers, veterinarians, and other healthcare professionals.
- Build a strong foundation for pre-med, nursing, and other healthcare programs.
- Earn credentials that enhance resumes and open doors to internships and jobs.
- Strengthen critical thinking, effective communication, collaboration, and adaptability.
- Get firsthand knowledge from medical experts and observe how classroom concepts are applied in real-world situations.
- Weekly clinical rotations with hospital units, rehabilitation centers, medical offices, labs, imaging centers, veterinary clinics, and chiropractic offices.
- Students may choose to sit for the **Certified Clinical Medical Assistant (CCMA)** exam.

COURSE OFFERINGS

As part of Mustang Medical, students have the opportunity to join HOSA - Future Healthcare Professionals.

HOSA's mission is to empower Future Health Professionals to become leaders in the health community through education, collaboration, and experience. The organization aims to enhance the delivery of quality healthcare by developing students' knowledge, skills, and leadership abilities, thereby helping them meet the needs of the healthcare community and prepare for careers in the health professions.
